

ASX RELEASE: 13 September 2021

Drilling Commences at McTavish following up Bonanza Intersections

HIGHLIGHTS

- Drilling has commenced over the weekend at the McTavish Prospect, with the first hole of the drilling programme successfully completed.
- The new drilling programme initially planned to incorporate 19 drill holes for a combined circa 2,100 metres of RC and diamond core is designed to follow up previously reported Bonanza Gold Intersections including¹:
 - McTRC0049 – 5 metres @ 25.9 g/t from 28 metres incl:
 - 3 metres @ 41.5 g/t from 30 metres,
 - 1 metre @ 91.2g/t Au from 30 metres;
 - McTRC0064 – 6 metres @ 20.6 g/t from 19 metres incl
 - 4 metres @ 29.1 g/t from 20 metres;
- Drilling will also test the 2km of strike between the McTavish and Leipold Trends at the Kookynie Gold Project, for which both the McTavish and Leipold prospects remain open along strike and at depth².

Metalicity Limited (ASX: MCT) (“MCT” or “Company”) is pleased to announce that the Company commenced drilling at the McTavish prospects at the Kookynie Gold Project (**Kookynie**), located approximately 50km south of the WA Goldfields town of Leonora, over the weekend. The first of 19 planned holes was successfully completed on Sunday.

Commenting on the commencement of drilling, Metalicity CEO Justin Barton said:

“We are excited to have commenced drilling at McTavish to follow up on the spectacular results we received in our last drilling programme. Combined with testing the 2km of strike between the McTavish and Leipold, this programme is highly anticipated and may be extended depending on results.”

⁽¹⁾ Please refer to ASX Announcement dated 8 July 2021 titled “McTavish Delivers Bonanza Grade Gold Results up to 91.2 g/t Au”

⁽²⁾ Please refer to ASX Announcement dated 2 July 2021 titled “Strong Gold Assays Extend Leipold Mineralisation to 1km”

Proposed Drilling Programme

The Company released the results of an extensive drilling programme at Kookynie in July this year which returned some bonanza high-grade intersections at the McTavish Prospect, which remains open to the south and at depth (Figure 1).

This follow up programme of 19 holes of circa 2,100 metres of reverse circulation (RC) drilling has commenced at McTavish and will test the 2km of untested strike between McTavish and Leipold, which remains open and have never been effectively drilled.

Phase Two Drilling to Commence Imminently dated 10th July 2020, Metalicity Continues to Deliver Excellent Drill Hole Results for the Kookynie Gold Project dated 2nd July 2020, Metalicity Continues to Deliver Spectacular Drill Hole Results for the Kookynie Gold Project dated 25th June 2020 & Metalicity Reports Drill Hole Intercepts Up To 80 g/t Au & Additional Tenement Acquisition for Kookynie dated 21st January 2020.

*Please refer to ASX Announcement dated 21 January 2020 titled "Metalicity Reports Drill Hole Intercepts Up To 80 g/t Au & Additional Tenement Acquisition for Kookynie"

As detailed in Figure 1 above, McTavish remains open to the south, towards Leipold and at depth.

Figure 2 – Kookynie Prospect Locality Map with mineralised trends.

Kookynie is located 60 kilometres south south-east from Leonora, Western Australia and is host to nine, significant prospects; Champion, McTavish, Leipold, Altona, Mulga Plum, Wandin, Diamantina, Cosmopolitan and Cumberland. Diamantina, Cosmopolitan and Cumberland are known collectively as the DCC Trend, please refer to Figure 1.

This Announcement is approved by the Board of Metalicity Limited.

Metalicity confirms that the Company is not aware of any new information or data that materially affects the information included in the relevant market announcement and, in the case of “exploration results” that all material assumptions and technical parameters underpinning the “exploration results” in the relevant announcements referenced apply and have not materially changed.

Competent Person Statement

Information in this report that relates to Exploration results and targets is based on, and fairly reflects, information compiled by Mr. Jason Livingstone, a Competent Person who is a Member of the Australian Institute of Geoscientists. Mr. Livingstone is an employee of Metalicity Limited. Mr. Livingstone has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined by the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr. Livingstone consents to the inclusion of the data in the form and context in which it appears.

Forward Looking Statements

This announcement may contain certain “forward-looking statements” which may not have been based solely on historical facts, but rather may be based on the Company’s current expectations about future events and results. Where the Company expresses or implies an expectation or belief as to future events or results, such expectation or belief is expressed in good faith and believed to have reasonable basis. However, forward-looking statements:

- (a) are necessarily based upon a number of estimates and assumptions that, while considered reasonable by the Company, are inherently subject to significant technical, business, economic, competitive, political and social uncertainties and contingencies;
- (b) involve known and unknown risks and uncertainties that could cause actual events or results to differ materially from estimated or anticipated events or results reflected in such forward-looking statements. Such risks include, without limitation, resource risk, metals price volatility, currency fluctuations, increased production costs and variances in ore grade or recovery rates from those assumed in mining plans, as well as political and operational risks in the countries and states in which the Company operates or supplies or sells product to, and governmental regulation and judicial outcomes; and
- (c) may include, among other things, statements regarding estimates and assumptions in respect of prices, costs, results and capital expenditure, and are or may be based on assumptions and estimates related to future technical, economic, market, political, social and other conditions.

The words “believe”, “expect”, “anticipate”, “indicate”, “contemplate”, “target”, “plan”, “intends”, “continue”, “budget”, “estimate”, “may”, “will”, “schedule” and similar expressions identify forward-looking statements.

All forward-looking statements contained in this presentation are qualified by the foregoing cautionary statements. Recipients are cautioned that forward-looking statements are not guarantees of future performance and accordingly recipients are cautioned not to put undue reliance on forward-looking statements due to the inherent uncertainty therein.

The Company disclaims any intent or obligation to publicly update any forward-looking statements, whether as a result of new information, future events or results or otherwise.
